# Volunteer opportunities

---

We arrange with partner organizations volunteer opportunities for students (and not only students) of Charles University. We select reputable non-profit organizations for you with a variety of opportunities to get involved. The wide range of activities offered by the organization will enable anyone interested in volunteering to develop their skills, positively influence society, and broaden their horizons.

If a position interests you, please [register in our database of volunteers](#) , and we will then contact you with a date for the information meeting. At this meeting, you will find out everything you need to volunteer.
